

<b>Artificial Intelligence (AI)</b>	<b>Machine Learning (ML)</b>	<b>Deep Learning (DL)</b>	<b>Generative AI</b>
<b>the broad field of machines performing tasks that normally require human intelligence.</b>	<b>a subset of AI where systems learn from examples and data.</b>	<b>a further subset of ML using neural networks to understand complex patterns.</b>	<b>AI models that can create new content like text, images, or videos</b>
